ΑΦΟΙ Α. ΠΙΤΕΝΗ ΑΒΕΕ

ΒΙΟΜΗΧΑΝΙΑ GOURMET ΤΡΟΦΙΜΩΝ

*“quality
and tradition
in taste”*

A. Pitenis Bros SA is one of the largest production companies in the Greek food industry. The company was founded in 1973, as a delicatessen appetizer industry. The rapid growth of product demand, caused the subsequent transfer of the company into larger facilities, at which time it reinvested in new machinery and production techniques.

By December 1997, the company completed the construction of a new modern appetizer production plant, with the acquisition of 14.000m² land area and building facilities of 3.000m² in order to efficiently handle the demands of domestic and international competition. The long-term confidence that consumers have shown in the company's products, as well as its "family-business" characteristics, lead to the production of more than 100 products by the year 2003. Since day one, the company's business ethic have assured the high quality standard of all its products.

In March 2003, the company established A. Pitenis Bros Co., a subsidiary company in Tripoli, for the distribution of products in Peloponnesus. By 2010, the company further facilitated the distribution of goods in Central Macedonia and Attiki by setting up branches in Thessaloniki and Athens. Overall, with its independent distribution network in Western Macedonia and more than 60 dealers worldwide, Pitenis supplies over 10.000 outlets.

The company recently expanded its business on the "gourmet" section of the food market, introducing products of both high quality and nutritional value like Salad's PREMIUM Line, Okeanos EXCLUSIVE and more.

Finally, Pitenis is certified by and implements the System Assurance & Quality Management "ISO - 22000:2005", which includes the Hazard Analysis and Critical Control Points "HACCP", the British Retail Consortium "BRC" Global Standards for safety and quality products, the International Food Standards "IFS" Global food safety system, and finally the USA Food & Drug Administration "FDA" (on site certification). Recently the company has initiated the necessary processes for "HALAL" Lawful Certification.

Pitenis has been awarded the "Golden European Quality Award" in a competition between 15.000 food production companies worldwide, as well as the "First Nationwide Award" and the "First Commendation" for the "Business Excellence and Distinction" by EOMMEX SA, and the "Young Entrepreneur Award" by Kozani's Chamber of Commerce.

PRODUCT LINES

The company specializes in the production of gourmet delicacies, in four separate sections of the factory. The main section is occupied with the production of traditional Greek dips like Tzatziki, Tarama Salad, Houmous, Chilly Feta Cheese Salad, Aubergine Salad, Agioritiki Salad, Russian Salad, etc. Pickled products are produced on a separate section with main products being, the stuffed peppers with cheese, the sundried tomatoes and the traditional pickled cabbage leaves. On the next section of the factory, the seafood delicacies are produced. The variety of products extends from shellfish and fish in oil, e.g. marinated anchovies, smoked mackerel, smoked herring, to the more recent product line OKEANOS EXCLUSIVE which consists of highly gourmet products like smoked octopus, smoked eel, smoked salmon, smoked trout and fish pastourma. The last section of the factory deals with dressings and sauces like Mayonnaise, Mustard and Ketchup, in various flavors.

WHY PITENIS;

Capturing market's messages fast and at their early stages, Pitenis family invested on the combination high quality - traditional taste, using the most modern production techniques, achieving International certifications, (ISO 22000:2005, HAACP, BRC, IFS, FDA), and utilizing pure raw materials, 97% of which come from the Greek land. The highly skilled workforce is the company's main strength. The organizational chart includes, apart from the Production, Finance, Sales, Storage, etc., departments, an Exports department, a Marketing department, fully equipped and certified Chemic & Microbiological Laboratories and a separate R&D department for the continuous improvement of the existing products as well as for the development of new lines.

3

"PREMIUM" PRODUCT LINE

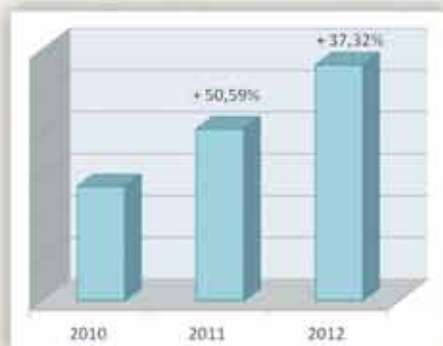

At the end of 2012, the company introduced in the Greek and International market, the new gourmet product line PITENIS PREMIUM, consisting of 7 dips-spreads, made with 'Krokos' Kozanis (PDO), the Greek Saffron, and the multi-awarded Extra Virgin Olive Oil of Sitia (PDO) in Crete. The high nutritional value, the high antioxidant properties, the special taste, Pitenis "know-how" and the International Patent, offer a very strong competitive advantage to the company and all of its associates.

COMPANY'S AIM

The main target of the company's strategy is to establish and prove the statement made by "Pitenis" and Greek producers in general, that Greek products are of high quality and high nutritional value, providing great "value for money" to the consumer. The pure raw materials of the Greek land, combined with the drive for excellence, the know-how and the modern marketing techniques, create an unrivaled combination!

EXPORTS

Exports play the main role on the organizational culture of the company. Year by year, the company builds a very strong exporting profile. Export sales extend from European Union countries to USA, Canada and Russia, with a continuous increasing rate since 2004, peaking at years 2010-2013, as it is showing on the following diagram.

Rate of Increasing Export Sales for the years 2011 & 2012

Saffron Kozanis

specialized
expertise
products

world wide
patent

with **SAFFRON KOZANIS**
and **EXTRA VIRGIN OLIVE OIL**

Utilizing two Greek PDO products (Protected Destination of Origin), the multi-awarded Extra Virgin Olive Oil of Sitia (Crete) and Krokos (Saffron) Kozanis, we managed, with the supervision of our excellent Biologist R&D team, to invent and patent internationally a solution that over-doubles Olive Oil's antioxidant properties. It's the invention of this solution that led to the production of the New PREMIUM product line, consisting of delicious dips-spreads, dressings and an Extra Virgin Olive Oil with Krokos Kozanis extract ...

GREEK "TZATZIKI" SALAD

- Pandaisia Drained Yoghurt, Fresh cucumber & garlic, Extra Virgin Olive Oil with Saffron Kozanis.

Krokos
(Greek Saffron PDO Kozani, GR)

Krokos Kozanis (Saffron), a pure natural product of the Greek land, classifies amongst the best quality Saffron in the world. There are many traditionally accepted properties of krokos, like the aphrodisiac, the antiseptic of the oral cavity, the anticonvulsant, the digestive. It contributes to the well-being and the good health of the human system. It acts as an antioxidant and as an antithrombotic agent. In our days, it is well known that the stigmas of krokos have strong antioxidant properties, protecting against the growth of free radicals, while recent studies converge to the conclusion that, it improves human brain function and especially memory, as well as blood circulation.

Extra Virgin Olive Oil
(PDO Sitia, Crete GR)

In the Mediterranean diet, olive oil is the main constituent of good health and long living, being a very rich source of energy. Studies confirm the therapeutic action of olive oil against duodenal ulcer, by reducing the concentration of gastric fluids into the stomach. It also improves colon's function and helps in balancing good and bad cholesterol. The mono-unsaturated fats and the antioxidants that are a part of olive oil's main constituents, help in the prevention of blocked blood arteries and reduce the risk of heart deceases or a new heart attack.

MAYONNAISE

Nutritional & Lenten salads

TAHINI SALADS

... with natural antioxidants

Houmous :
a product that the Ancient Greeks used in their everyday diet as a Full Meal !

Houmous, or "Houmi", as properly called by the Ancient Greeks, is the combination of sesame with any other legume. It is a creamy salad containing tahini (grinded sesame pulp), one or more grinded legumes, lemon and garlic.

- The Ancient Greek soldiers always carried sesame seeds, in order to give them the high energy needed to cope with emergency situations.

Combining legumes with Tahini, you get the same amount of proteins as from red meat !
(... for more information ask for our special 'TAHINI SALADS' leaflet)
